Welcome to Jyväskylä - City of Light

We are delighted to invite the LUCI Network to visit our beautiful city, surrounded by amazing Finnish nature, lakes and Alvar Aalto architecture. Jyväskylä is the 7th biggest city in Finland and known for its dedication and history in architecture, education, sports and, of course, urban lighting.

In Jyväskylä, we have been working towards better understanding and implementation of lighting solutions for almost 25 years now. In March 2023, we wish to invite you all to see the results for yourself when the LUCI AGM takes place in Jyväskylä from 1-4 March 2023. At that time of the year, visitors can enjoy the real winter experience in Finland with snow, ice and lighting, without forgetting the beauty of nordic darkness.

The event will focus on important themes, such as lighting & the environment as well as lighting projects & community engagement. We will hear from many amazing speakers and also have the chance to participate in some hands-on lighting action ourselves! Following LUCI's 20th anniversary year, this AGM will also mark a major step for the network with the adoption of the LUCI Declaration for the Future of Urban Lighting.

Warm welcome, see you in Jyväskylä.

Timo Koivisto
Mayor of Jyväskylä

ANNUAL GENERAL MEETING

JYVÄSKYLÄ | FINLAND

1-4
MARCH
2023

URBAN LIGHTING & THE ENVIRONMENT

Understanding the effects of urban lighting for the environment as a whole is crucial in all decision-making. Learn from the best professionals and lighting experts and bring this knowledge to your everyday work.

LIGHTING PROJECTS & COMMUNITY ENGAGEMENT

Including citizens and stakeholders in the urban lighting design process and light festivals can have a big impact on how people feel about the public space and their common environment. We will learn more about the advantages of such cooperation through case studies presenting light and community engagement.

HANDS-ON EXPERIENCES WITH LIGHT

The best way to learn about light is to play and experiment with some hands-on work. Join us for fun lighting action during the Jyväskylä AGM!

ADOPTING THE LUCI DECLARATION FOR THE FUTURE OF URBAN LIGHTING

During LUCI's 20th anniversary year, the network collectively worked towards the "Declaration for the Future of Urban Lighting" that complements the original LUCI Charter and helps cities envision how to adapt urban lighting in the long term. The Declaration will officially be adopted during the Jyväskylä AGM.

After Shanghai (China) in 2019, Tartu (Estonia) in 2021, and Busan (South Korea) in 2022, the LUCI Annual General Meeting 2023 takes place in Jyväskylä (Finland). This key event of the LUCI calendar is designed for urban lighting professionals from cities across the world to exchange experiences and learn from each other.

More information

- Free participation for LUCI members (accommodation included)
- 300 euros for non-LUCI members (accommodation not included)
